**Subject: Requisition application for convening Special General Body Meeting for Redevelopment of Society's Building.**

Sir,

We, the undersigned members of the Well Ratnadeep CHS Ltd, hereby request you to look further and continue on redevelopment of the society and in that reference call for a Special General Body Meeting of the members of the society

Redevelopment needs to be focused considering ageing of the building and going forward may get into a deteriorated condition. Already members are having concerns regarding problems of water seepage during monsoon and cracks being developed on the walls of the flats.

This may require heavy repairs to beam, pillar & ceiling et., it is better to concentrate and pursue redevelopment at the earliest.

The heavy repairs will not make much sense due to ageing of the building, since the government leverages redevelopment currently, we request you to call the Special General Body Meeting for the redevelopment as soon as possible.

Sincerely,
